

S-19-99

To Whom ~~4154~~ May Concern:

Being a consumer, I'm  
very appalled that I'm not  
informed or notified as  
to what meat is being  
treated with antibiotics.

I'm not a big meat  
eater but my children  
are, and I would like

to know what my food  
contains before I buy

it! Meat is the only food

that doesn't specify exactly

99P-0485

C825

MAY 35 11 22

what it contains. I think  
I should be able to  
make my own choices  
when buying food for my  
family!

Thank-You

Sincerely,

Lester McKinney

As a member of the Center for Science in the Public Interest (CSPI), I urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. And that can leave physicians with no way to treat life-threatening bacterial infections in humans. That's why I support the petition filed by CSPI.
